

URGENT Fairview Fire Department Update

Citizens and Supporters:

Earlier this year many of you displayed your intense support in preventing the closure of your local fire station, Fairview Station 2. Since then, there has been continued efforts to prevent that, enhance response in your time of need, and keep the Fire Tax you pay within your community. There is a major step in that process going on right now by way of a Bill before the NC General Assembly that supports these efforts and will provide protection against a number of negative impacts similar to what you were recently facing.

It is House Bill H1110 and is proceeding at a rapid pace through the legislature right now, possibly to be passed within the next two weeks. The Bill can be found by clicking the link below for your review.

[House Bill H1110](#)

The current need is urgent and simple, please contact the NC House and NC Senate members below by clicking on the links to email them and/or call their office. Your positive comments and support of this effort would be greatly appreciated by all who live in the areas protected by Fairview Fire Department (Ten-Ten Fire District).

We thank you again for your support and assistance.
